Sir,

I have the honour to submit the Annual Report on the Working of the Central Press, the Mysore Gazette Office, the Branch Press at Mysore, the Office of the Registrar of Authorised Publications in Mysore, and the Government Central Book Depot, for the - - year 1937-38.

1. SUPERINTENDENCE:- Mr. B. Srinivasa Iyengar, held the Office of Superintendent till 12th April 1938, when he was granted Privilege Leave for two months preparatory to retirement in - - Government Notification No.2756/C.B.168-37-2, dated 2nd April 1938 and retired from service from 12-6-1938. I continued as Assistant Superintendent in charge of the Stationery Depot and some of the Working Branches of the Press with general supervision over the other Branches till 12th April 1938 and was appointed as Acting Superintendent, Government Printing, Stationery Depot, Stamp Manufactory and Central Book Depot, Compiler, Mysore Gazette and Registrar of Authorised Publications in Mysore, in which charge I continued till the end of the official year as sanctioned in the same Notification.

Mr. B. Krishnaswamy Chetty continued as Assistant Superintendent in charge of the Government Branch Press, Mysore, throughout the year.

Mr. D.S. Gurubasavappa, Sub-Assistant Superintendent, was

was granted a free Damodar Das Scholarship of £275/- per annum for advanced studies in Printing at the College of Technology, Leeds, for a period of one year from September 1937, as sanctioned in Government Order No.E.354-5/Edn.33-37-1, dated 17th July 1937. The progress made by Mr. Gurubasavappa and the results achieved by him in the Examination have been submitted to Government from time to time. He secured a first class in all the subjects taken up by him, viz., Photographic Process, Process-engraving including Photo-gravure, Lithography including Photo-Litho, Natural Colour Photography and Colour reproduction Process. He also took a course of Lectures in Cost-Finding and Estimating. He has reported himself for duty on the 8th August 1938.

Mr. B. Gopala Iyengar, General Foreman, was appointed to act as Sub-Assistant Superintendent, vice Mr. D.S. Gurubasavappa, during the above period in Government Order No.G.3809-10/P.&.S. 17-37-2, dated 16-11-1937.

Mr. D. Daniel, Sub-Assistant Superintendent, continued to be in charge of the Government Central Book Depot and Press Accounts throughout the year.

Mr. K. Shamanna, Head Clerk, Government Press, Bangalore, was appointed to act as Sub-Assistant Superintendent in Notification No.G.9149/P.&.S.84-37-3, dated 18th May 1938, against the vacancy caused by the appointment of the Assistant Superintendent as Acting Superintendent, Government Printing, and he was in charge of the Press Office, Stationery Depot, Forms Branch and the Despatching Branch, from 20th May 1938, to the end of the official year.

Mr. K. Srivijayapaliah, Press Probationer, has made good progress during the year and has passed Composing (Senior Grade) and Proof-Reading (Senior Grade), the latter in First Class.

Mr. M.A. Sri Rama, M.Sc., was appointed as Press Probationer in Government Order No.G.5168-70/P.&.S.16-37-16, dated 10th January

January 1938. The Progress made by these two Probationers has been submitted to Government with this office letters Nos.P.203 and P.204, dated 13th July 1938.

2. (a) ADDITIONAL PLANT:- A sum of Rs.38,600/- was provided under the head "Purchase of Machines" in the Press Budget during the year, out of which the following Machines were purchased for the use of both the Government Presses at Bangalore and Mysore:-

FOR THE CENTRAL PRESS.

1) One Monotype Super Caster	..	Rs.15,886-0-0
2) One Thread Book Sewing Machine	..	" 6,868-13-0

FOR THE BRANCH PRESS.

3) Two 'Swift' Wharfedale Printing Machines	..	" 10,437-4-0
4) One Wire Stitching Machine .. R.M.1576	)..	" 4,387-7-0
5) One Thread Book Sewing Machine .R.M.3142	)	
6) One Lever Lead and Rule Cutting Machine	..	" 449-12-0
	Total.	Rs.37,829-4-0

Special mention must be made of the Monotype Super Caster which was purchased during the year. It casts in addition to book-work and display types, rules, leads, furniture and ~~ga~~ quotations so that the resources of the Press have been considerably added to and the slow and laborious hand-casting has been dispensed with.

A few spare parts for the Monotype and the Boston Wire Stitching Machines were also purchased to the value of Rs.1,405-4-0, the expenditure being met from the provision under the head "Materials and Type" in the Press Budget.

In addition to the above, 8,810 lbs. and 1 oz. of type valued at Rs.6,457-5-0, were cast and taken to stock in the Central Press accounts as against 7,604 lbs. and 12 ozs. of type valued at Rs.6,202-8-0 in the previous year. Four thousand six hundred and seventy pounds and eight ounces of lead valued at Rs.2,006-13-0

10/

Rs.2,006-13-0, and 2,191 lbs. 8 ozs. of quotations valued at Rs.821-13-0 were also cast and taken to stock. Miscellaneous Additions consisting of Type Cases, Steel Perforating Rules, Chases and other printing materials valued at Rs.1,602-14-0 were also made to the plant bringing the total value of the additions to Rs.34,848-14-0 against Rs.11,281-6-0 in the previous year.

(b) REPAIRS TO MACHINERY:- A sum of Rs.63-3-9 was paid to the Central Industrial Workshop, Bangalore, towards repair charges, against Rs.96-8-7, in the previous year. All ordinary repairs were executed in the small workshop attached to the Press.

(c) As the Electric installation at the Government Central Press, Bangalore, was giving frequent trouble, the Chief Electrical Engineer was consulted in the matter. He furnished an estimate for Rs.8,679/- for the complete renovation of the Lighting and Power system and this was sanctioned in Government Order No.G. 1408-10/P.&.S.92-36-2, dated 13-8-37, with instructions that the work may be spread over two years. During the year under Report, renovation work in the Machine and Binding Branches was taken up and completed. The old system of Lights has been ~~replaced~~ (supplemented) by the new Osira Lamps which give improved light to the work rooms and afford facilities for work. The cost on this account during the year, viz., Rs.4,481-4-0, was met by the additional grant sanctioned in Government Order No.G.6635-7/P.&.S.31-37-14, dated 17th March 1938.

(d) The Carpenters of the Press attended to the requirements of the several Branches and wood of the value of Rs.257-3-5 was purchased for the purpose as against Rs.135-7-11, in the previous year.

3. ESTABLISHMENT:- There were 392 paid employees in the Central Press at the close of the year, against 391 in the previous year, the increase of one hand being due to the appointment of another Press Probationer. Of these, 145 were on the permanent

Permanent Establishment, 156 on the Working Establishment (Fixed) and 91 on the Piecework Establishment. In addition to these, 15 Pie Boys were ~~received~~ receiving fixed wages against a similar number in the previous year. A statement showing the strength of the Establishment classified according to communities is appended (vide statement No.VIII).

4. OVERTIME:- The total number of Overtime units of one ~~honour~~ hour each worked during the year was 6,208, against 5,171 in the previous year. Overtime was resorted to in connection with the Budget works, Proceedings of the Representative Assembly and Legislative Council, University question papers, Income-tax Regulation, Traffic Guide Book, Dasara Hand Book, Oriental Conference Proceedings, Mysore Companies Act and Insurance Act, work of the Indian Science Congress, Speeches of His Highness the Maharaja, His Highness the Yuvaraja, Press Communiques, emergent notifications, and other urgent and important works. The cost incurred on overtime amounted to Rs.641-12-0 against Rs.532-2-0 in the previous year.

5. HEALTH AND ACCOMMODATION:- The health of the employees was generally satisfactory. There were, however, six casualties, of which three occurred in the Permanent Establishment, two in the Working or Fixed Establishment and one in the Piecework Establishment. Of these four were due to Tuberculosis, and it is felt that if the men concerned had been able to get medical advice in time, they might have been saved or the ~~disease~~ disease might have been arrested. In the case of a big establishment with nearly 400 workers engaged in arduous occupations in crowded and congested rooms which take a severe toll on health, the services of a medical adviser to conduct a thorough examination of men who fall seriously ill and advise the men, appear to be very desirable. Detailed proposals in this behalf will be separately submitted for the orders of Government.

The accommodation continues to be insufficient for the needs of the Central Press and the allied offices. The building proposed to be constructed in front of the existing Press Building is expected to relieve the congestion to an appreciable extent and I would make a strong appeal to Government to order that it should be given priority and taken up and completed within a period of six months, in view of the insanitary and crowded conditions under which a large number of employees are working and of the nature of the press work which requires very long hours of work in the ordinary course and imposes a terrible strain upon the workers during special occasions of the Budget, Birthday, Dasara and Elections work.

6. PLANT (STATEMENT NO.1):- The value of the plant at the Central Press at the beginning of the year was Rs.2,25,093-10-0, the difference of Rs.295-14-0 between the closing balance of the previous year and the opening balance of the year under report being due to the corrections made as per Comptroller's letter No.397/L.A.D, dated 18th February 1938. A difference of - - 1,32,062 lbs. 2 ¾ ozs. of Type noticed at the stock-taking for the quinquennium ending 30th June 1936, has been distributed pro rata against the several kinds of Type noted in the Inventory and the Ledger of this office after allowing a depreciation of 5 per cent on the quantity of Type as sanctioned in Government Order No.G.4442-3/P.&.S.36-36-6, dated 10th December 1937. Additions amounting to Rs.34,848-14-0 were made during the year, bringing the total value of the plant to Rs.2,59,942-8-0. A sum of - - Rs.27,196-2-0 comprising deductions and depreciation amount was written off the accounts, leaving the total value of plant at the close of the year at Rs.2,32,746-6-0.

7. STORES (STATEMENT NO.DI):- The value of Press miscellaneous stores that were in stock in the press stores at the commencement of the year was Rs.6,428-14-3. Articles of the value of

of Rs.9,681-0-4, which includes a sum of Rs.2,593-4-1, being the value of Stationery articles other than paper supplied by the Stationery Depot, were received during the year, raising the value of the total stock to Rs.16,109-14-7. Out of this stock, articles of the value of Rs.11,678-1-5, were consumed during the year, leaving the balance of stores valued at Rs.4,431-13-2, in stock at the close of the year. The varieties and value of supplies other than paper supplied by the Stationery Depot are included in Statement II as required in Government Order No.G. 7057-106/G.L.16-18-3, dated the 29th November 1916. The cost of paper supplied by the Stationery Depot for printing purposes amounted to Rs.68,212-5-8, against Rs.64,359-6-2, in the previous year.(vide Statement No.III). The Registers pertaining to the Press Stores have been maintained in a satisfactory manner. The stock of store articles was verified in July 1937 and January 1938, and the result reported to Government, who directed in their order No.G.8194-5/P.&.S.75-57-2, dated 5th April 1938, that the excesses amounting to Rs.5-12-1 may be taken to stock and the deficiencies of the value of Re.0-11-6 may be written off the accounts.

15

(f) TOTAL EXPENDITURE. (Statements Nos.III and IV):- The total expenditure of the press for the year under the several heads indicated in these statements amounted to Rs.1,73,293-4-5 against Rs.1,44,967-12-7, in the previous year, the marked increase of Rs.28,325-7-10 being due to the large outlay which was incurred on additional plant during the year, as also on the renovation of the Electric installation.

BRANCH PRESS, MYSORE.

9. (a) ESTABLISHMENT:- The total strength of the Establishment of the Branch Press, Mysore, stood at 108 on 30th June 1938 against 95 in the previous year, the increase being due to the additional Establishment of 13 hands consisting of six Assistant Machine Minders and seven Binders sanctioned in Government Order No.G.6509-10/P.&.S.43-37-2, dated 15th February 1938, to cope with the increased Railway Work. The consisted of sixty-six permanent men, 32 on fixed monthly wages, 9 piecework Compositors and one pie boy.

(b) OVERTIME:- The total amount spent on overtime during the year was Rs.654-3-0 as against Rs.286-4-0 expended last year, the increase being mainly due to the printing work of the Railway Department consequent on the resumption of the Bangalore-Harihar and Bangalore-Hindupur Sections, works connected with the marriage of Prince Jayachamaraja Wadeyar, the Proceedings of the Representative Assembly and the Legislative Council and the Dasara work.

(c) PLANT AND STORES:- The total value of the plant at the beginning of the year was Rs.52,047-10-0 as amended in Government order No.G.4442-3/P.&.S.36-36-6, dated 10th December 1937. Additions to the value of Rs.16,136-2-0 were made during the year, bringing the total value of the plant at the close of the year to Rs.68,183-12-0.

The excess quantity of 21,492 lbs. 6¼ ozs. of Type noticed at

at the time of quinquennial stock-taking for the period ending 30th June 1936, has been distributed pro rata on the several kinds of type after allowing a depreciation of 5 per cent on the quantity of type as sanctioned in the above Government Order. Deducting the value of unserviceable articles and allowing depreciation at recognised rates, the total value of plant on 30th June 1938 was Rs.62,281-11-0.

(d) OUTTURN OF WORK:- The total number of pages of various sizes composed during the year was 13,399 against 13,341 in the previous year. Converted into foolscap folio standard pages, the number of pages comes to 13,187 as compared with 12,892 of last year. The total number of impressions printed was 9,943,030 against 5,988,715 in the previous year. The total number of books bound was 360,003 against 336,173 during the last year. The figures for ruling, numbering and perforating were 3,173,128, 5,918,670 and 2,839,605 against 1,614,522, 3,588,320 and 1,465,843, respectively, in the previous year. It will be thus seen that there has been a considerable increase in the outturn of work in all the branches. Some more machinery in the printing and binding branches has to be installed to cope with the large increase of work at the Branch Press.

(e) RECURRING AND SPECIAL WORKS:- The usual recurring and special works of the University and the Railway Department, the work in connection with the Birthday of His Highness the Maharaja of Mysore, the Dasara and Budget sessions of the Representative Assembly, the Mysore Dasara Exhibition, works received from the Palace, and the work in connection with the Marriage of Prince Jayachamaraja Wodeyar were all carried out promptly. The following special works were received for execution last year and they have either been completed or made good progress

progress as noted below:-

(f) HEALTH AND ACCOMMODATION:- The health of the employees continued to be unsatisfactory as in previous years. Many of the employees were granted sick-leave during the year on production of proper medical certificates.

Owing to the increased equipment in Men,

men, machinery and materials, the accommodation at the Branch Press has been found quite inadequate. Additional accommodation has to be found urgently by extending the present building. Detailed proposals will be separately submitted for the orders of Government.

Sir,

With reference to Official Memorandum No.G.1047-107/G.M.99-32-5, dated 8th August '38, I have the honour to submit in duplicate, the following Brief Report on the working of the Government Central Press, Bangalore, the Branch Press at Mysore, the Mysore Gazette Office, the Office of the Registrar of Authorized Publications and the Government Central Book Depot, for the year 1937-38.

2. The outturn of work in the Central Press was 68,736 standard pica foolscap folio pages composed, 23,716,480 impressions printed, 1,261,795 books bound as against 69,505 pages composed, 20,494,170 impressions printed, 1,271,816 books bound in the previous year. There has been an increase in the quantity of work turned out under Printing, Perforations, Embossing and Type cast, and a decrease under Composing, Binding, Numbering and Ruling, the decrease under the latter two heads being accounted for by these processes being done simultaneously with the printing of the forms on the machine. The expenditure for the year was Rs.1,73,295/- against Rs.1,44,968/- in the previous year, the increase of Rs.28,325/- being due to the large outlay which was incurred on additional plant during the year as also on the renovation of the Electric installation.

Proposals for improving the Gazette receipts have been submitted to Government and are under their consideration.

5. The number of books and periodicals registered during the year was 339 as against 310 in the previous year.

6. During the year under Report, Official Publications and publications of the Educational Department, of the Publicity Office, the University, the Palace and the Indian Red Cross Society and the Reports of the High Court of Mysore, were stocked and sold at the Depot. SIR,

I have the honour to submit the Annual Report on the working of the Central Press, the Mysore Gazette Office, the Branch Press at Mysore, the Office of the Registrar of Authorised Publications in Mysore, and the Government Central Book Depôt, for the year 1937-38.

1. *Superintendence.*—Mr. B. Srinivasa Iyengar held the Office of Superintendent till the 12th April 1938, when he was granted privilege leave for two months preparatory to retirement, in Government Notification No. 2756—C. B. 168-37-2, dated 2nd April 1938, and retired from service from 12th June 1938. I continued as Assistant Superintendent in charge of the Stationery Depôt and some of the working branches of the Press with general supervision over the other branches till 12th April 1938, and was appointed as Acting Superintendent, Government Printing, Stationery Depôt, Stamp Manufactory and Central Book Depôt, Compiler, *Mysore Gazette* and Registrar of Authorized Publications in Mysore, in which charge I continued till the end of the official year as sanctioned in the same notification.

Mr. B. Krishnaswamy Chetty continued as Assistant Superintendent in charge of the Government Branch Press, Mysore, throughout the year.

Mr. D. S. Gurubasavappa, Sub Assistant Superintendent, was granted a free Damodar Das Scholarship of £275 per annum for advanced studies in Printing at the College of Technology, Leeds, for a period of one year from September 1937, as sanctioned in Government Order No. E. 354-5—Edn. 33-37-1, dated 17th July 1937. The progress made by Mr. Gurubasavappa and the results achieved by him in the examination have been submitted to Government from time to time. He secured a first class in all the subjects taken up by him, *viz.*, Photographic Process, Process engraving including Photogravure, Lithography including Photo-litho, Natural Colour Photography and Colour Reproduction Process. He also took a course of lectures in Cost-finding and Estimating. He has reported himself for duty on the 8th August 1938.

Mr. B. Gopala Iyengar, General Foreman, was appointed to act as Sub Assistant Superintendent, *vice* Mr. D. S. Gurubasavappa during the above period, in Government Order No. G. 3809-10—P. & S. 17-37-2, dated 16th November 1937.

Mr. D. Daniel, Sub-Assistant Superintendent, continued to be in charge of the Government Central Book Depôt and Press Accounts throughout the year.

Mr. K. Shamanna, Head Clerk, Government Press, Bangalore, was appointed to act as Sub-Assistant Superintendent, in Notification No. G. 9149—P. & S. 84-37-3, dated 18th May 1938, against the vacancy caused by the appointment of the

Assistant Superintendent as Acting Superintendent, Government Printing, and he was in charge of the Press Office, Stationery Depôt, Forms Branch and the Despatching Branch from 20th May 1938, to the end of the official year.

Mr. K. Srivijayapaliah, Press Probationer, has made good progress during the year and has passed Composing (Senior Grade) and Proof-Reading (Senior Grade), the latter in the first class.

Mr. M. A. Sri Rama, M.Sc., was appointed as Press Probationer in Government Order No. G. 5168-70—P. & S. 16-37-16, dated 10th January 1938. The progress made by these two Probationers has been submitted to Government with this office letters Nos. P. 203 and P. 204, dated 13th July 1938.

2. (*a*) *Additional Plant.*—A sum of Rs. 38,600 was provided under the head "Purchase of machines" in the Press Budget during the year, out of which the following machines were purchased for the use of both the Government Presses at Bangalore and Mysore :—

FOR THE CENTRAL PRESS.

		Rs.	a.	p.
(1) One Monotype Super Caster	... ...	15,886	0	0
(2) One Thread Book Sewing Machine	... ...	6,668	13	0

FOR THE BRANCH PRESS.

(3) Two "Swift" Wharfedale Printing Machines	... ...	10,437	4	0
(4) One Wire Stitching Machine (R.M. 1576)	... ...	4,387	7	0
(5) One Thread Book Sewing Machine(„ 3142)	... ...			
(6) One Lever Lead and Rule Cutting Machine	... ...	449	12	0
	Total ...	37,829	4	0

Special mention must be made of the Monotype Super Caster which was purchased during the year. It casts, in addition to book-work and display types, rules, leads, furniture and quotations, so that the resources of the Press have been considerably added to and the slow and laborious hand-casting has been dispensed with.

A few spare parts for the Monotype and the Boston Wire Stitching Machines were also purchased to the value of Rs. 1,405-4-0, the expenditure being met from the provision under the head "Materials and Type" in the Press Budget.

In addition to the above, 8,810 lbs. and 1 oz. of type valued at Rs. 6,457-5-0, were cast and taken to stock in the Central Press accounts as against 7,604 lbs. and 12 ozs. of type valued at Rs. 6,202-8-0 in the previous year. Four thousand, six hundred and seventy pounds and eight ounces of lead valued at Rs. 2,006-13-0 and 2,191 lbs. 8 ozs. of quotations valued at Rs. 821-13-0 were also cast and taken to stock. Miscellaneous additions consisting of type cases, steel perforating rules, chases and other printing materials valued at Rs. 1,602-14-0 were also made to the plant bringing the total value of the additions to Rs. 34,848-14-0 against Rs. 11,261-6-0 in the previous year.

(*b*) *Repairs to Machinery.*—A sum of Rs. 63-3-9 was paid to the Central Industrial Workshop, Bangalore, towards repair charges against Rs. 96-8-7 in the previous year. All ordinary repairs were executed in the small workshop attached to the Press.

(*c*) As the electric installation at the Government Central Press, Bangalore, was giving frequent trouble, the Chief Electrical Engineer was consulted in the matter. He furnished an estimate for Rs. 8,679 for the complete renovation of the lighting and power system and this was sanctioned in Government Order No. G. 1408-10—P. & S. 92-36-2, dated 13th August 1937, with instructions that the work may be spread over two years. During the year under report, renovation work in the Machine and Binding branches was taken up and completed. The old system of lights has been supplemented by the new Osira lamps which give improved light to the work rooms and afford facilities for work. The cost on this account during the year, *viz.*, Rs. 4,481-4-0, was met by the additional grant sanctioned in Government Order No. G. 6635-7—P. & S. 31-37-14, dated 17th March 1938.

(*d*) The carpenters of the Press attended to the requirements of the several branches and wood of the value of Rs. 257-3-5 was purchased for the purpose as against Rs. 135-7-11 in the previous year.

3. *Establishment.*—There were 392 paid employees in the Central Press at the close of the year against 391 in the previous year, the increase of one hand being due to the appointment of another Press Probationer. Of these, 145 were on the Permanent Establishment, 156 on the Working Establishment (Fixed) and 91 on the Piece-work Establishment. In addition to these, 15 pie boys were receiving fixed wages against a similar number in the previous year. A statement showing the strength of the Establishment classified according to communities is appended (*vide* Statement No. VIII).

4. *Overtime.*—The total number of overtime units of one hour each worked during the year was 6,208, against 5,171 in the previous year. Overtime was resorted to in connection with the Budget works, Proceedings of the Representative Assembly and the Legislative Council, University Question Papers, Income-tax Regulation, Traffic Guide Book, Dasara Hand Book, Oriental Conference Proceedings, Mysore Companies Act and Insurance Act, work of the Indian Science Congress, Speeches of His Highness the Maharaja, His Highness the Yuvaraja, Press Communiques, emergent Notifications, and other urgent and important works. The cost incurred on overtime amounted to Rs. 641-12-0 against Rs. 532-2-0 in the previous year.

5. *Health and Accommodation.*—The health of the employees was generally satisfactory. There were, however, six casualties, of which three occurred in the Permanent Establishment, two in the Working or Fixed Establishment and one in the Piecework Establishment. Of these, four were due to tuberculosis, and it is felt that if the men concerned had been able to get medical advice in time, they might have been saved or the disease might have been arrested. In the case of a big establishment with nearly 400 workers engaged in arduous occupations in crowded and congested rooms which take a severe toll on health, the services of a medical adviser to conduct a thorough examination of men who fall seriously ill and advise the men, appear to be very desirable. Detailed proposals in this behalf will be separately submitted for the orders of Government.

The accommodation continues to be insufficient for the needs of the Central Press and the allied offices. The building proposed to be constructed in front of the existing Press building is expected to relieve the congestion to an appreciable extent and I would make a strong appeal to Government to order that it should be given priority and taken up and completed within a period of six months, in view of the insanitary and crowded conditions under which a large number of employees are working and of the nature of the Press work which requires very long hours of work in the ordinary course and imposes a terrible strain upon the workers during the special occasions of the Budget, Birthday, Dasara and Elections work.

6. *Plant* (*Statement No.* I).—The value of the plant at the Central Press at the beginning of the year was Rs. 2,25,093-10-0, the difference of Rs. 295-14-0 between the closing balance of the previous year and the opening balance of the year under report being due to the corrections made as per Comptroller's letter No. 397—L.A.D., dated 18th February 1938. A difference of 1,32,062 lbs. 2¾ ozs. of type noticed at the stock-taking for the quinquennium ending 30th June 1936, has been distributed *pro rata* against the several kinds of type noted in the inventory and the ledger of this office after allowing a depreciation of 5 per cent on the quantity of type as sanctioned in Government Order No. G. 4442-3—P. & S. 36-36-6, dated 10th December 1937. Additions amounting to Rs. 34,848-14-0 were made during the year, bringing the total value of the plant to Rs. 2,59,942-8-0. A sum of Rs. 27,196-2-0 comprising deductions and depreciation amount was written off the accounts, leaving the total value of plant at the close of the year at Rs. 2,32,746-6-0.

7. *Stores* (*Statement No.* II).—The value of press miscellaneous stores that were in stock in the Press stores at the commencement of the year was Rs. 6,428-14-3. Articles of the value of Rs. 9,681-0-4, which includes a sum of Rs. 2,593-4-1, being the value of stationery articles other than paper supplied by the Stationery Depôt, were received during the year raising the value of the total stock to Rs. 16,109-14-7. Out of this stock, articles of the value of Rs. 11,678-1-5 were

consumed during the year, leaving the balance of stores valued at Rs. 1,431-13-2 in stock at the close of the year. The varieties and value of supplies other than paper supplied by the Stationery Depôt are included in Statement II as required in Government Order No. G. 7057-106—G. L. 16-18-3, dated the 29th November 1916. The cost of paper supplied by the Stationery Depot for printing purposes amounted to Rs. 68,212-5-8, against Rs. 64,359-6-2 in the previous year (*vide* Statement No. III). The registers pertaining to the Press stores have been maintained in a satisfactory manner. The stock of store articles was verified in July 1937 and January 1938, and the result reported to Government, who directed in their Order No. G. 8194-5—P. & S. 75-57-2, dated 5th April 1938, that the excesses amounting to Rs. 5-12-1, may be taken to stock and the deficiencies of the value of Re. 0-11-6 may be written off the accounts.

8. *Outturn of work in the Central Press, Bangalore* (*Statements* III *and* IV)—(*a*) *Composing.*—The number of pages of various sizes composed during the year was 60,014 against 61,917 in the previous year. (*c*) *Binding.*—The various kinds of books bound including those that required simple binding was 1,261,795 against 1,271,816 in the previous year. Of these, 87,991 were bound with board and calico or leather backs. Out of these latter, 17,796 were bound in superior style. In addition to binding, there were 1,464,493 perforations, 3,530,705 pages numbered, 3,319,634 copies ruled, 81,850 covers made and 93 maps of various sizes mounted and bound as against 1,441,834 perforations, 3,797,395 pages numbered, 3,751,292 copies ruled, 65,115 covers made and 184 maps of various sizes mounted and bound in the previous year. (*f*) *Total Expenditure.*—(*Statements Nos.* III *and* IV).—The total expenditure of the Press for the year under the several heads indicated in these statements amounted to Rs. 1,73,293-4-5 against Rs. 1,44,967-12-7 in the previous year, the marked increase of Rs. 28,325-7-10 being due to the large outlay which was incurred on additional plant during the year, as also on the renovation of the electric installation.

Branch Press, Mysore.

9. (*a*) *Establishment.*—The total strength of the establishment of the Branch Press, Mysore, stood at 108 on 30th June 1938 against 95 in the previous year, the increase being due to the additional establishment of 13 hands consisting of six assis-

tant machine minders and seven binders, sanctioned in Government Order No. G. 6509-10—P. & S. 43-37-2, dated 15th February 1938, to cope with the increased railway work. This consisted of 66 permanent men, 32 men on fixed monthly wages, 9 piecework compositors and one pie boy.

(*b*) *Overtime.*—The total amount spent on overtime during the year was Rs. 654-3-0 as against Rs. 286-4-0 expended last year, the increase being mainly due to the printing work of the Railway Department consequent on the resumption of the Bangalore-Harihar and Bangalore-Hindupur Sections, works connected with the marriage of Prince Jayachamaraja Wodeyar, the Proceedings of the Representative Assembly and the Legislative Council and the Dasara work.

Additions to the value of Rs. 16,136-2-0 were made during the year, bringing the total value of the plant at the close of the year to Rs. 68,183-12-0.

The excess quantity of 21,492 lbs. 6¼ ozs. of type noticed at the time of quinquennial stock-taking for the period ending 30th June 1936, has been distributed *pro rata* on the several kinds of type after allowing a depreciation of 5 per cent on the quantity of type as sanctioned in the above Government order. Deducting the value of unserviceable articles and allowing depreciation at recognised rates, the total value of plant on 30th June 1938, was Rs. 62,261-11-0.

(*d*) *Outturn of Work.*—The total number of pages of various sizes composed during the year was 13,399 against 13,341 in the previous year. Converted into foolscap folio standard pages, the number of pages comes to 13,187 as compared with 12,892 of last year. The total number of impressions printed was 9,943,030 against 5,896,715 in the previous year. The total number of books bound was 360,003 against 336,173 during the last year. It will thus be seen that there has been a considerable increase in the outturn of work in all the branches. Some more machinery in the printing and binding branches has to be installed to cope with the large increase of work at the Branch Press.

(*e*) *Recurring and Special Works.*—The usual recurring and special works of the University and the Railway Department, the work in connection with the Birthday of His Highness the Maharaja of Mysore, the Dasara and Budget Sessions of the Representative Assembly, the Mysore Dasara Exhibition, works received from the Palace, and the work in connection with the marriage of Prince Jayachamaraja Wodeyar were all carried out promptly. (*f*) *Health and Accommodation.*—The health of the employees continued to be unsatisfactory as in previous years. Many of the employees were granted sick leave during the year on production of proper medical certificates.

Owing to the increased equipment in men, machinery and materials, the accommodation at the Branch Press has been found quite inadequate. Additional accommodation has to be found urgently by extending the present building. Detailed proposals will be separately submitted for the orders of Government.

10. (*a*) *Miscellaneous Receipts.*—The cash receipts under this head amounted to Rs. 53,138-12-6 against Rs. 40,748-8-8 in the previous year.
